Subject: telephone conference

Dear Dr. Scherer–

Happy New Year!

Shixia Feng, Tony Tricker and I would like to have a discussion with you on various topics, some of which you discussed with Hans Roethig during his December visit to your laboratory. We propose a telephone call on Wednesday, Jan.22, at 9:30 a.m. EST. Subjects for review include the proposed publications you discussed with Hans, possible development of further biomarkers for application in PM clinical evaluation work, and the cross validation study we were planning at the end of 2002.

If the time and day I've suggested are acceptable to you, please let me know. I will initiate the call from my office on Wednesday.

Best regards,
Robin
